We understand that Gen. Wm. A. Petriken has been nominated for Congress, by the Conferees of this district.

## [Correspondence of the Public Ledger.] Things in New York. THURSDAY, 4 P. M.

It is not, I believe, generally known that the widow and daughter of the late M. Lafitte, the great French Banker and at one time Minister of Finance, arrived in this city last week as steerage passengers in the ship Splendid, Captain Crawford, from Havre. So it is, however. A turn of the fortune's wheel cast them from the salons of Paris into the hold of an emigrant ship, and left them without even funds to pay the small cum required for filth and foul air in a ship's steerage, with three or four hundred people of a grade that a few years ago they would have termed canaille for their companions. The revolution of 1830 nearly ruined Lafitte; the four days of June rendered his family paupers. The widow and daughter, who are said to be most exemplary, as well as highly accomplished ladies are now in Boston seeking engagements as governessess or school teachers. They have met with kind friends, I understand.

The Perry County (Miss.) Tragedies. Many months have clapsed-since we gave

our readers a detailed account of a tragedy which occurred in M sessippi, in which Washington and James Bilboos were killed. A man named Brown, and his son-in-law Wages, were concerned in it. We need not recall the particulars, but Wages for a time appeared in the county, and, with a man named McGrath, got into a difficulty with young Harvey, upon whom Wages pretended Table of Premiums required for the Assurance of \$100 for the whole term of Life. to have some claim. Harvey shot them both as bactbeen reported in the Mobile papers, copied by us. Since then the tragedy has deepened in attrocity, and five more lives have been taken.

It appears that the father and mother of the Wagos shot by Harvey lived in Alabama, slose to the line of Perry county, Miss., where they harbored the gang of outlaws with whom their son and McGrath were associated. They swore vengeance upon Harvey, and hired a man named Lee, to kill him. giving him a thousand dollars for the job .-Lee took with him a party of three or four, and proceeded to searh his money.

Young Harvey had been cautioned not to expose himself, and he had removed from the house or cabin upon his farm to his father's but was in the habit of visiting his farm once or twice daily, to look after it. This Lee and his party found out by prowling in the vicinity, and took advantage of Harvey's absence to enter his cabin. They secured themselves therein, cut loop-holes from which to watch his coming, and, armed with guns, they patiently awaited his arrival.

Harvey discovered the preparations made for his reception and murder. Joined by a younger brother, he raised a party of eight or ten men, and all proceeded to his cabin. The miscreants inside were taken by surprise but secured the entrance to the cabin. Harvey very recklessly led to attack them. He rushed upon the door and burst it in, but they were prepared, and Lee shot him directly through the shoulder and breast, killing him. His younger brother immediately shot Lee down, and as the party inside rushed out to escape, he took a flying shot at them, and killed another man, named Geo. Jourdan.

Upon receiving news of his son's death, old Harvey determined upon exterminating the nucleus of the gang—old Wages and his wife. A party volunteered to follow him, who proceeded straightway across the line into Alabama, to the residence of Wages. They found the old folks at home, and seized them at once, and with rows taken. they found the old folks at home, and seized them st once, and with ropes taken with them for the purpose, hung them by the neck to the rafters of the house. Waiting an hour or so, till their victims were dead, they then left and returned to Alabama.

It is due to the Harvey family to say that they have long been known as honest, respectable people. They were peaceable even to a fault, until roused by the attack upon one of their number, and his subsequent murder. It is estimated that twelve or fifteen lives

Patent Air-Tight SUMMER AND WINTER COOKING

STOVES. THE above Stove, which is equally well adapted to Wood or Coal, has received silver medals at the fairs of the American Institute, New York; of the Mechanics Institute, Boston; of the Franklin Institute, Philadelphia; and of the Mechanics' Institute, Wilmington, Delaware.

It is capable, if properly used, of doing more work, with less fuel, than any other Stove yet offered to the public; in winter it will warm the largest kitchen, while in summer, with the summer dress attached, it throws out no hore heat than a charce-al furnace; and for boiling, broiling, lasking, or reasting, it cannot be surpassed by any other Stove, open fire, or brick oven.

CERTIFICATE OF THE JUDGES OF THE MECHANICS' INSTITUTE, BOSTON.

We, the subscribers, being ch sen Judges by the Messachusetts Charitable Mechanics' Association in B ston, on stoves, furnaces, ranges, &c. would inform the public, that after testing all the cooking stoves that were put into the Pair for exhibition, and letting cach man manage his own stove with the same kind of coal, in order to mecertain which would do the same work with the least firel in the same time, and do it best, we find that Sewart's Patent Summer and Winter Air-Tight Cooking Stoke, minafactured by the patentee, of Troy, N. Y., to be the best, as it took but 13 minutes to boil two gallons of water and back biscuit in the same time, and broil beef steak, and sli done in the least manner with seven pounds of coal, in thirty minutes from the time the fire was put into the stove. To which we awarded the silver medal, JAMES GOULD.

Windsor, Vermont.

Is a severeign remedy for DYSPEPSIA, in many of su forms, such as pain in the Somach, Heartbara, habitual Costiveness, Acid Stomach, Heartbara, Heartbara, habitual Costiveness, Acid Stomach, Heartbara, Heartbara, habitual Costiveness, Acid Stomach, Heartbara, Loss of Appetite, Philaisic,) and Ashmas, or Phithistic attended with derangement of the Stomach (or Dyspeptic Syspanosa), is relieved by these Butters. In abort, their use has been proved in the relief of almost all the symptoms that proceed from a debilitated or atonic condition of the Stomach; also in general debility arising from age or from the effects of Pever, particularly Fever and Ague. Females suffering under any uterine decaugement arising from weakness, will find the "Oxvoratran Birtims" an excellent remedy, and not surpassed by any medicine in use.

The history of this medicine is peculiar. It has made its way to public favor solely by the force of its own intrinsic merits. No ortificial means have been used to give it not viety and thrust it up an public attentical. It has never before even been advertised, but having first shown its remarkable efficacy in the family of the proprietor, and by him afterwards administered to his afflicted friends and aequantizances with a like result, its reparation gradually extended until it is kn awn in the most distant parts of the Union, as a medicine of unrivalled virtues in the cure of Dyspepsia in all its different forms, and also for the cure of Dyspepsia in all its different forms, and also for the cure of Asthma or Pathisic. Its only herald and its only enlay has been the story of its wonderful efficacy, as told from month to month or by letter from friend to triend. In every instance where those Bitters have been used, and the result made known to the proprietor, they have proved a remedy.

Birchingham, Carland Co., Dec. 13, 1841.
Sir—you wish me to inform you what I know of Dr.
Ossyood's India Choing give, or anti-hilious medicine. I do believe that if the virtue and efficacy of this medicine were
generally known, the Fever and active would disappear in
Michigan.

generally known, the reven and acte would disappear in Michigan.

I procured a bottle in the spring of 1841, and have good reason to believe that myself and family escaped the ague has season in consequence of its use.

Perhaps in no summer since the settlement of this fine peninally, has the fever and gaie been so prevalent as the last. I have ree many-sided this uncleime in numerous instances, and when the disease had become fixed and buffled the skill of physicians; and I have never known it fail. I has universally produced the nost happy effects, and I het lieve it has never been exceeded by any medicine in removing the bilious diseases of the climate.

Yours, respectable.

In this medicine several innocent but very potent article of the vegetable kingd on are united, forming a compounentirely different in its character and properties from an other proparation, and unrivalled in its operation on it system when laboring under disease. It should be in thands of every person, who, by business, or general counof life, is predisposed to the very many aliments that reder life a curse, instead of a blessing, and so other result death.

FOR ERUPTIONS OF THE SKIN. Scurvy, Sestbatic Affections, Tumors, White Swelling, Erystpelas, Uleers, Cancers, Ruaning Sores, Seabs and Biles, Dr. Drake's Panacea cannot be too highly extelled; it searches out the very root of the discusse, and permanent.

INDIGESTION OR DYSPEPSIA.

RITTEMATESM Dr. Drake's Panacea is used with the greatest success in Rheumatic Complaints, especially such as chronic. It cures by driving out all impurities and foul him ours which have accumulated in the system, which are the cause of Rheu-matism, Gout, and Swellings of the joints. Other remedies sometimes give temporary relief; this entirely cradicates the disease from the system, even when the limbs and bones are decalable when the first productions and the same and the same the contract of the system.

CONSUMPTION CONSUMPTION.

Consumption can be guarm.—Coughs, Catarrh, Bronchitis, Spitting of Blood, Asthma, Diment or promise Expect pration, flectic Plush, Night Sweats, Pain in the side &c, have been circle, and can be with as much certainty as any other disease. A specific less I uig been sought for, but in vain until the disease difficulties in its operation, and cannot possibly injure the most delicate c ustituti in. We would carnestly the mand these afficied to give it a trial—and we believe they will not have occasion to regret. Indian Vegetable Pills. This medicine is compounded on general principle, from the pure, unsubtreated berto of the Indian. Although there are many medicines called by the same name, every one is aware that there is a very great difference among them. Those of them that are called "Indian," have stolen the name from an, who were the first to introduce a prepored Indian medicine to the American public. Of coerse a similarity of name does not create a similarity in the char-

eter of the medicine.

Wright's Indian Vegetable Pills are distinguished for their perfect adaptation to the human loody. In their operation, they do exactly what sature does, and nothing more. They have a roun-role action, upon the longe, shin, kidneys and bowels. Hence their peculiar power over disease.

By promoting perspiration, they break up Conc. Cotons, RHEIMATIC COMPLAINT, PAIN IN THE BACK, CHOPULA, CUTANEOUS ERUPTIONS, PINCERS, BLOTCHES, PRECELES Envarrenas, &c.

The against of the Pills on the kidneys is such as to make them a valuable lithoutriptic. DEOPST, GRAVEL, and Pa-MALE COMPLAINTS, arising from districtions at certain periods, are speedily removed by their use.

A free Experionalies from the lungs is excited by the use of Wright's Indise Tegetable Piles their restoring Pulmonary Complaints, such an ANTHEA, Bugherress, Someness and Tightness of the Breast, Coughe, Sore

Throat, &c.
By their action on the Srosson and Bowns, the Pine cure Dyspersia, Liver Complaint, Palpitation of THE HEART, FLATULENCY, COSTIVENESS, PAYMES OF all kinds, Picurisy, Headache, Giddiness, Dysenfery, Piles, and all

disorders of the intestines.

Taken in small doses, Wright's Indian Vegetates Pitts become an ALTERNATIVE medicine, of great searching en-ficacy, for the cure of Sones of all kinds, Tetter, Tumora, JAUNDICE, LOWNESS OF SPIRITS, NEURALGIA, RASH, PAINS

IN THE BONES, &C.

These Pills also thoroughly break up INFLUENZA, in

which complaint they are extremely valuable.
In Bilious Complaints, these Pills exercise a complete mosters. Hence PEVER AND AGER is speedily cured by use of them, In the Western and Southern States, where this disease mostly prevails, those Pills go like an Avalanche. While they are cheaper than the fever and aggle remedies in general, Wright's Indian Vegetable Pills heve been prenounced superior to all of them. Indeed, it would appear that if there is one complaint over which these Pill, have in re-power than another, it is FEVER AND AQUE.

For destroying and expelling Worms, no Verminge is
superior to these Pills Although we have not taken prime to make this fact public, the merit of the medicine itself has acquired for it an extensive reputation and sale for the re-

effect of the Pills is equally radical and decisive. All who saffer from Womas should by all means, use Wright's Indian Vegetable Pills. In fact, no one can go amiss in the use of this medicine They are natural to the body as food is. A trial will emvine the skeptical that Wright's Indian Vegetable Pills far from being a common "quack nostrum," are decidedly the most valuable medicine ever offered to the public.

Beware of Sugar Coated Counterfelts.

Remember that the original and only gennine Indian Vegetable Pills have the written signature of Wm. Wright on the top label of each box.
